PROFILE

The firm, active since 2000, provides architectural and interior design services, with particular attention to the renovation of offices and private residences in Italy and abroad.

The company is capable of providing a wide range of services to meet the most demanding needs of both private and corporate clients.

The architect's professionalism and creativity, together with the experience in project management, provide client with high quality consultancy.

Continue research in innovative materials for the interior design and the elegant integration with natural finishes give projects great visual impact.

Through the deep analysis and full understanding of client's needs, the firm is able to offer an integrated design that ensures proper use of spaces, improved environmental quality and careful control of time and operating costs in compliance with the new energy saving requirements.

The design approach is based on a clear scheduling and on the continuous management of the customer's needs from the earliest design stages. Good communication is the key to the realization of a successful project. The reputation of the study is based on the commitment to provide professionalism, architectural quality and to meet budget and time.

Architect Maura Tardini

was born in Milan in 1969 and graduated at Milan's Politecnico in 1994.

The first years of her career have been dedicated to the research in Bioclimatic Architecture and Energy Saving, carrying on several projects for the European Community, collaborating with Marco Sala Associates in Florence. She's been teaching for one year in the course of Technology II at Florence's University evolving a research on the improvement of thermal K for building insulation capacity.

Back in Milan she's been collaborating with G14 Progettazione for the project of the Milan Airport of Malpensa 2000. Then a deep experience in Milan's practice Architest evolved her as Project Manager for the refurbishment of Class Editori in Milan and Banca Arner in Lugano. In the meantime she started her own career with Fitch Ratings London office interior design project.

From the very beginning the clear aim of the practice has been to offer the client a full service combining the professional approach of a concrete project management to the free spirit of creativity and love for the beauty.
